- DOM Events
- Forms + Validation
- Array methods (map, filter, reduce)
- Strings (methods)
- Date & Math objects
- localStorage

CHAPTER 3: ES6+, ASYNC JS & ADVANCED

- let/const, template literals
- Arrow functions
- Destructuring, Spread/Rest
- Promises
- async/await
- Fetch API (GET/POST)
- Closures & Scopes

CHAPTER 4: ADVANCED JS, EVENT LOOP, PROJECTS

- Prototypes & OOP
- this keyword
- Event Loop
- Error handling
- Modules (import/export)
- Practice + Revision
- Project 1 – Todo App
- Project 2 – Weather App
- Project 3 – Notes App

PROJECTS:

- Project 1: TASK MANAGER APP (Major Project)
- Project 2: WEATHER DASHBOARD (API Project)
- Project 3 NOTES APPLICATION (CRUD Project)
- Project 4: Currency Converter App
- Project 5: Typing Speed Test App

MODULE 3: REACT (TABLE FORMAT)

CHAPTER 1: REACT FUNDAMENTALS

- What is React? Setup (Vite/CRA), JSX
- Components (Functional), Props
- State (useState)
- Lists, Keys, Conditional Rendering
- Event Handling
- Basic Styling, CSS Modules
- Props Drilling + Lifting State Up

CHAPTER 2: HOOKS, FORMS & APIS

- useEffect (Basics)
- useEffect (Cleanup)
- Forms in React
- Formik / React Hook Form
- Fetch API + Axios
- Custom Hooks
- Error Handling & Loading States

CHAPTER 3: ROUTING, STATE & PERFORMANCE

- React Router 6 Basics
- Nested Routes + Params
- Protected Routes
- Redux Toolkit (Intro)
- Redux Async Thunks
- Performance Optimization (useMemo)
- Performance Optimization (useCallback, memo)

CHAPTER 4: REACT PROJECTS & ADVANCED

- React Architecture Best Practices
- Context API (Alternative to Redux)
- Error Boundaries
- Lazy Loading + Code Splitting
- React Table / Pagination
- Practice + Revision
- Project 1 — Movie Search App
- Project 2 — Expense Tracker
- Project 3 — Blog UI + Routing

PROJECTS:

- Project 1: YouTube Clone (Frontend)
- Project 2: Recipe Finder App (API Based)

MODULE 4: NODE, EXPRESS, MONGODB, DOCS & DESIGN

CHAPTER 1: NODE.JS FOUNDATIONS

- What is Node.js?, Installing Node, NPM basics
- Modules (CommonJS & ES Modules)
- File System (fs module)
- Path Module
- Event Loop + Async JS in Node
- HTTP Module (Basic Server)
- NPM Project Setup + ENV files

CHAPTER 2: EXPRESS, ROUTING & MIDDLEWARE

- Intro to Express.js
- Routing (GET, POST, PUT, DELETE)
- Query params, route params
- Middleware (custom + built-in)
- Error Handling Middleware
- CORS, Helmet
- Express Folder Structure

CHAPTER 3: MONGODB, MONGOOSE & AUTH

- MongoDB setup (Atlas)
- Mongoose Models + Schemas
- MongoDB CRUD
- User Registration (bcrypt)
- Login + JWT Auth
- Auth Middleware
- Mongoose Populate, Filters

CHAPTER 4: API DOCS, SYSTEM DESIGN & PROJECTS

- Postman API Testing
- Swagger API Docs
- File Upload (Multer)
- Pagination + Searching
- Basic System Design — Client → Server → DB
- System Design — Caching, Rate Limit, Scaling
- Build Product API System (Practice)
- **Project: Finalization**

PROJECTS:

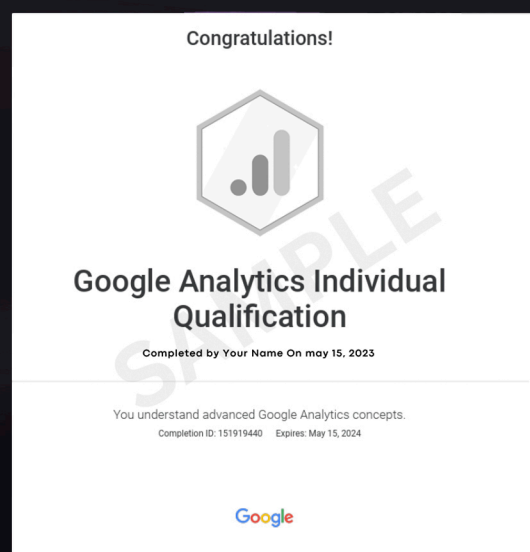

- **Project 1: Job Portal Backend**
- **Project 2: Event Management API**
- **Project 3: MERN Learning Management System (LMS)**

Learning experience was amazing because the course contents are more practical rather than just theoretical. Edure is particularly good at Student support and motivation. You get a classroom learning experience in a completely virtual environment. Number one Data Science institute in Kerala. Thanks Edure!!! 😊

Class and teaching staffs are good, they help us whenever we need help, don't expect theory class here, Most of the classes are practicals so it helps us to understand the concepts very well.

I am Sreelekshmi Data Analytics learner from Edure. I was provided with excellent support and information by Career counselors. I found everything was just right. I really enjoyed doing Data Analytics course. The course content are precise and my tutor is knowledgeable. Placement team find the best fitting role and organisation for you at the best way. Thank you very much Edure and I will surely recommend Edure to all my friends and relatives...

Explore, Enhance & Excel... If you want to excel your Excel skills. Go for Edure !! Lockdown seemed to be worth when I thought of joining the Excel Workshop from Edure. I was initially thinking it to be a demo sought of class. But trust me it was way much better.The online sessions were taken in a planned way with proper coordination. Recorded videos of the sessions were provided. At the end to keep a check over our learnings an assignment was also shared.The whole process was so transparent and it never felt as a online class. The Overall experience was amazing.... If just for a basic course the process was so well planned,one could imagine their delivery for specific course offered. I would really appreciate the Team behind it and also thankful for making Excel an added feather on my hat. The first institution I came across which didn't boast about themselves... and aims only at providing a Quality Training. Good Luck Edure !!!
